ABOUT US

United Way of Blount County is advancing the common good by creating opportunities for a better life for all.

We all win when a child succeeds in school, when families are financially stable and when people have good health.

That's why we fight for the health, education and self-sufficiency of every person in Blount County.

Our goal is to create lasting changes in our community by addressing the root causes of Blount County's problems.

Together, we can accomplish more than any single group can on its own.

That's what it means to LIVE UNITED.

#FightTheGoodFight
